RECONCILIATION (CONFESSION)

Saturday Only (Or by appointment)

4:00 - 4:30 P.M. St. Michael

BAPTISM: Preparation class is necessary for parents and godparents. Class meets 3rd Wednesday of each month. Make an appointment with the priest for an interview and registration.

FUNERAL: Funeral arrangements are made with the cooperation of the mortuary and St. Michael Church. It is customary to call the Rectory **before completing arrangements.**

ANOINTING OF THE SICK: For those who suffer from serious illness or before surgery, call the Rectory Office.

HOMEBOUND: For the aged, sick or homebound who wishes to receive Holy Eucharist, call the Rectory Office.

WANT MARRIAGE BLESSED? Highly recommended if marriage not celebrated in the Church. Call the Rectory office or see the priest.

As The Holy Spirit gathers us here today, we find that the Gospel appears to be a lesson in table manners. But as we look and listen more closely, it's more a lesson in "kingdom etiquette." Whom do we welcome to our Eucharistic table? Whom do we welcome into our lives? Jesus tells us to reach out beyond our comfortable social circle to those who really need to hear the Good News. Let us pray today for the grace to be humble ambassadors of the gospel.

MISSION STATEMENT

We, the members of St. Michael Parish with the Mission of Saints Peter and Paul, and Saint Michael School, being born in the Image and Likeness of God, declare our firm commitment to our Lord Jesus Christ. Our Strength is in our Unity as a Christian Family of Faith. Our Hope is in the Renewal of ourselves as well as all those around us. Our Love for all, Urges and Inspires us to Reach Out to everyone with the Embrace of Christ. In this way, we desire to Proclaim and to Spread the Love of Christ to all. With the help of the Holy Spirit, we shall complete the Mission to which we are called in the Catholic Church.

HEALTH NOTES FROM ST. FRANCIS HEALTHCARE SYSTEM OF HAWAII

Water filters currently provide the best and healthiest solution to the problems of both bottled water and tap water. They remove more dangerous contaminants than any other purification method and they are uniquely designed to work with municipally treated water. The water they produce is not subject to phthalate contamination, and they are able to remove cryptosporidium from drinking water, a feat that neither municipal water treatment plants nor bottled water companies have yet managed. Also, drinking filtered water is a much more economical practice than drinking bottled water.
